OUR PURPOSE

Collaboration and Knowledge Sharing
NECWG unites emergency services and supporting organisations to share knowledge and shape best practices.

Coordination and Consensus Building
NECWG provides a forum for discussion and alignment on strategic priorities without losing autonomy.

Innovation and Thought Leadership
NECWG promotes research, innovation, and shares global lessons to advance emergency communications.

United Vision for Development
NECWG fosters a robust, inclusive, and adaptable emergency communication system for the future.

OUR GOALS

Promoting Interoperability Standards
We advocate for standards that enable different emergency communication systems to work seamlessly together, enhancing cooperation.

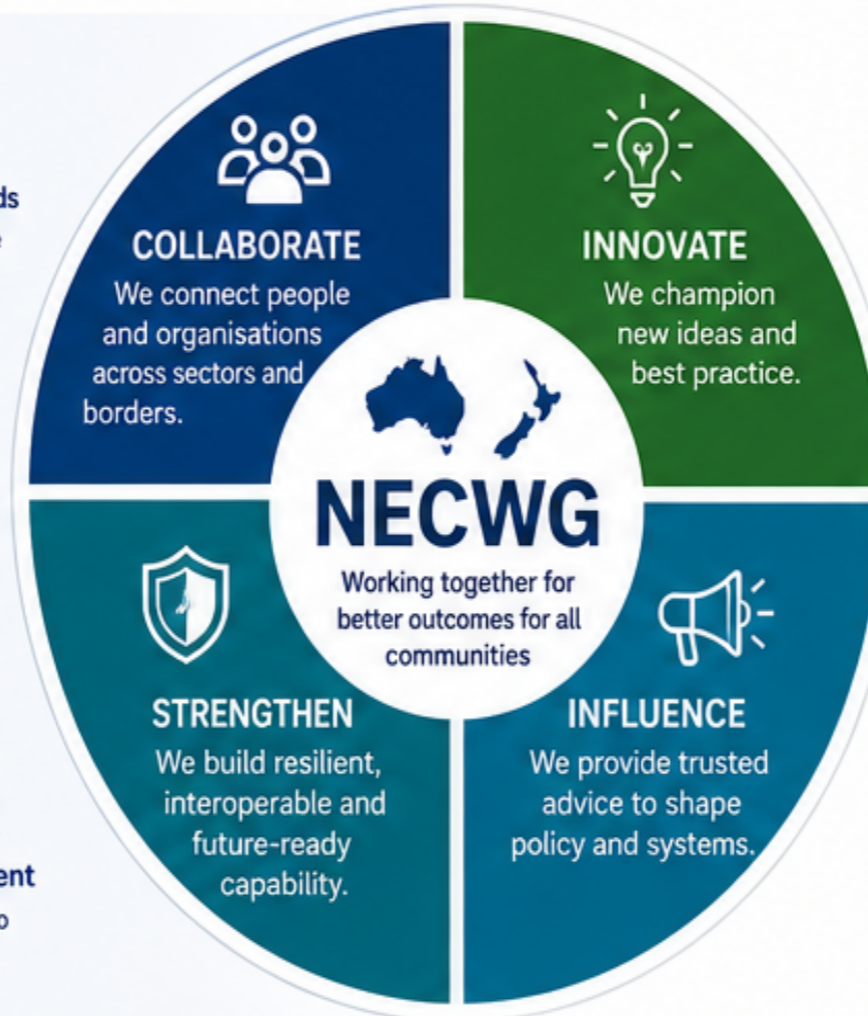

Supporting Next-Generation Technologies
We encourage adoption of advanced technologies and multimedia options to improve emergency responses.

Fostering Innovation and Knowledge Sharing
We promote pilot programs and collaboration across jurisdictions to drive innovation and shared learning.

Influencing Policy and Investment
We provide evidence-based advice to influence policy and investment for sustainable and resilient systems.

HOW WE DELIVER

Collaboration & Leadership
We bring members together through working groups, forums and executive leadership to drive shared priorities.

Interoperability & Resilience
We advocate for systems and standards that work together and strengthen resilience across the emergency communications ecosystem.

Innovation & Improvement
We monitor emerging trends, encourage innovation and support continuous improvement in capabilities.

Knowledge Sharing & Sector Support
We share guidance, insights and lessons learned to build capability and support informed decision making.
